

Storing and Updating your Will

Your Will is a valuable legal document and it needs to be kept both safe and accurate, therefore at ELM Legal Services we provide a Storage & Update service.

Most people will not be able to keep their Will safe at home from fire or other damage, it needs to be kept safe by law.

Storing your Will

Your Will is kept safe in our fireproof facilities so as to ensure that the original documents are kept in pristine condition until such time as they are required.

It is essential that your Will is kept in an immaculate condition when submitted for Probate in order to prevent the delays that can be caused due to any uncertainty that the Will has been tampered with.

We provide cards for you to give to your Executors so they know how to contact us when required and also your unique client identification number.

“ ELM Legal Services were very helpful when it came to placing my Will in a safe place away from fire and any damage. A friendly and helpful service. I would definitely recommend them.

Updating your Will

It is a very common misconception that once a Will has been written that this is a job done for life, unfortunately this is not so.

There are many reasons why your Will needs updating and a few are listed below:

- People named in your Will moving house
- Change of names when children or others marry or divorce
- New additions to the family or the loss of others
- Children reaching the age of majority to become Executors
- Family disputes.

It is your Will and therefore should always represent your current wishes. The update facility ensures that your Will is always going to be correct for you, no matter what your circumstances or desires are.

A simple amendment can be made over the phone with your Consultant or if of a more complex nature done on a face to face basis.

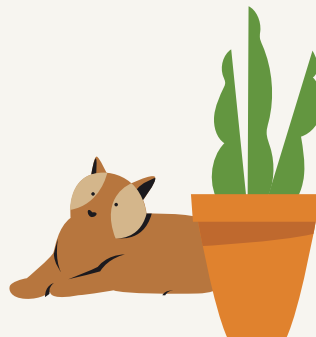

The Storage & Update facility provides unlimited updates with no additional cost at that time to worry about.

The **Perpetual Will Service**

For some of our clients the Perpetual Will Service we offer is not always appropriate for their circumstances at the time of us taking your Will Instructions.

Many clients at a later date however wish to move from our Storage & Update service to the Perpetual Will to take advantage of our Probate facility to help administer in the future their own or other people's estates.

It is reassuring to know that the premiums that you have made to the Storage & Update service will be carried over as a credit to the Perpetual Will Service at the time that you choose to make that upgrade.

Our **specialist services** include:

- Will drafting
- Probate
- Executor support
- Document storage

We are **here to help**
